Saturday April 14th

SMART Fest 2012

Event Location

Heights High School
Directions: Exit I-135 at 53rd St. North (Red Coach Inn is at this exit). Go east on 53rd St. two miles to Hillside. Heights is on the southwest corner.

Event Sponsored by Kansas City Audio Visual, Wichita Public Schools, And SMART Technologies

College Credit Available!
One graduate college credit will be available for certified staff for $50.00 through Baker University. Participants can sign up for credit the day of class. Bring your checkbook or credit card. No cash please. If you would like college credit, complete other course requirements. These requirements have changed from past classes . To see specific requirements, visit **http://tinyurl.com/SMARTFestCollegeCredit**

Saturday, April 14th
8:00-3:30

Join us for an exciting day of hands-on learning about SMART Boards, AirLiners, SMART Response Clickers and other SMART products! SMART Fest will have sessions for everyone – from beginners to experienced users. Stay all day, just in the morning or just in the afternoon – it is your choice! Free lunch will be offered to those staying all day so don't miss this chance to have a fun day of learning.

All sessions will be hands-on and taught by Wichita's SMART Master Teachers.

In the morning session, you will be able to select the session that best fits your *skill level***:**

- Intro to SMART Boards
- Intermediate SMART Boards
- Advanced SMART Boards
- Xtreme SMART Board
- Intro to SMART Response Clickers

In the breakout sessions, you will be able to select **two** of these topics based on your *interest level***:**

- SMART Response Clickers at a Glance
- Top Online Resources for Your "SMART" Classroom
- Multiply Engagement with SMART's Math Tools
- SMART Notebook Lesson Activity Toolkit
- SMART Notebook Lesson Design Tips
- AirLiners/SMART Slates at a Glance

See next page for session descriptions

Schedule of Events

8:00-8:30 Registration
8:30-11:30 Morning sessions based on skill level
11:30-12:30 Lunch – provided to all-day attendees
12:30-1:55 Breakout Session 1
2:05-3:30 Breakout Session 2

SMART Board 101: *This session is designed for teachers who have little or no experience using a SMART Board.* Learn the basics of using SMART Board software to integrate and enhance classroom curriculum. Participants will learn how to set up a SMART Board and how to use the basic features of SMART Notebook software to begin creating your own SMART Board lessons.

Intermediate SMART Board: *This session is designed for teachers who feel fairly comfortable with the basics of using a SMART Board and Notebook software and are ready to learn some new tricks and tips. AirLiner users are also welcome as the focus of this session will be applicable to AirLiner as well.* You will learn some of the features available in SMART Notebook software such as dual-page display, layering and grouping, using tables, adding graphics and hyperlinks, ink aware, and more.

Advanced SMART Board: *This session is designed for teachers who feel very comfortable using the SMART Board and Notebook software. AirLiner users are also welcome as the focus of this session will be applicable to the AirLiner.* You will learn advanced features of SMART Notebook software such as animations, screen capture tool pull tabs, how to utilize the SMART Video Player with United Streaming videos, locate additional free software that will enhance the use of the SMART Board/AirLiner and much more.

***Xtreme* SMART Board:** Participants will work with advanced features of Notebook software and learn techniques for incorporating these features into engaging lessons. Participants will be shown a variety of Notebook activities and will be challenged to replicate them. This session is best for teachers who are very comfortable with creating their own SMART Notebook lessons.

Intro to SMART Response Clickers (formerly called Senteo): *This session is designed for teachers who have little or no experience using SMART Response clickers.* Want to learn how to utilize SMART Response clickers in your classroom to engage learners and get the feedback you need as a teacher? Then come to this session to see how easy it is with SMART Response. SMART Response software is integrated right in SMART Notebook (the same software used with SMART Boards.) You will learn the basics in this session. Bring a class list and a SMART Response receiver with two clickers with you.

SMART Response Clickers at a Glance: Want to get an introduction on how SMART Response clickers can be used in the classroom? Come to this session to get an overview of how they can be used to instantly track quiz results and lesson comprehension, to gain immediate insight into student learning, and to help increase overall retention and engagement. *If you attend the morning SMART Response class, please pick a different breakout session.*

Top Online Resources for Your "SMART" Classroom: This session will cover the very best resources on the web that will help you to further integrate the SMART Board into your everyday teaching and become connected with other educators. Find lessons and resources to save you time!

Multiply Engagement with SMART's Math Tools: (Best for secondary classrooms!) SMART Notebook offers several new dynamic math tools, such as a shape creator, graph builder and advanced equation editor that will make your lessons more visual, understandable and interactive. Come learn how to use these tools in your classroom! ***SMART Math Tools are available for an extra cost. However there is a free 30 day trial that can be used to try out the tools.***

SMART Notebook Lesson Activity Toolkit: In this session, learn how to spice up your lessons using techniques from the lesson activity toolkit, a section in the gallery that allows you to easily create dynamic activities for your classroom. Bring a few ideas with you so you can create activities you can use right away!

SMART Notebook Lesson Design Tips: This session, led by a SMART Certified Lesson Developer, will focus on designing SMART Notebook lessons to take advantage of the technology. You will learn how to develop content slides that help struggling readers/SPED/ESOL students to see key points in the text and other tips and tricks for making the most out of your SMART lessons. Come with a lesson you already have created but want to improve or some ideas in mind to create one from scratch. Bring any resources you may have to help you get started (textbooks, etc.)

AirLiners/SMART Slates at a Glance: Learn the basics of using the AirLiner to integrate and enhance classroom curriculum. Participants will learn how to set up an AirLiner and the basic functionality as well as getting hands-on practice with the device.
